R. M. WRIGHT,

A True Hero.

A nurse was passing through a hospital in a field. She saw a boy evidently dying. She asked him if she could write a letter home for him. He thanked her, and replied that she could, but turning to another wounded soldier near him, said: "I can wait. Take him first. He is about to go." The nurse did not believe that he could wait, and insisted on taking his letter. She told him that there was time for both. He replied: "No, I can wait. Take him first." She turned to the other wounded man and began rapidly to write his letter, and as she did so she would glance furtively at the first boy. When he saw that his pale face disturbed her, he called a passing surgeon and had him turn his face away so that the nurse, as she wrote, could not see the shadows of death creeping over it. When the letter was finished, the nurse hastened to his side to write the letter he had desired, but the boy was dead.—Presbyterian.

Have been using them for about six months and have never yet been disappointed in them." Sold by W. F. Pine.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Palace Drug Co.
